Statement of Reasons for Allowance

1. Claims 1-34 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The present invention is directed to a method for a user interface which generates a preview display to aid in the navigation of items of content on a computer.

Claims 1, 15, 31 and 34 recite, or similarly recite, in combination with the remaining elements, the distinguishing feature of said actual content being selected by utilization of a content selection algorithm that determines which content from said item will be useful to a user in making one or more navigational choices.

The closest prior art, Amro et al. (US 5,680,561) and Livingston (US 6,621,590 B1), show a substantially similar method for a user interface having a preview display to aid users in navigating to desired content on a computer. However, Amro et al. and Livingston, singularly or in combination, still fail to anticipate or render the above cited limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
